**Chair of meeting:**  
Westwood, Simon  
Independent SSCB Chair

**Members in attendance:**
- Ms Armfield, Karen: Head Teacher, Boothstown Methodist Primary School  
- Ms Blackburn, Deborah: Assistant Director: Public Health Nursing  
- Ms Clancy, Karen: Deputy Director of Integrated Governance, Lead Named Nurse GMW Mental Health NHS Foundation Trust  
- Dr Dixit, Kalpesh: Designated Doctor, SRFT  
- Rabbi Grant, Simon: Lay Member  
- Ms Hubber, Sharon: Assistant Director Specialist Services, Salford City Council  
- Ms Murray, Louise: Deputy Chief Executive, CVS,  
- Ms Ramsden, Charlotte: Director of Adult and Children’s Services, Salford City Council  
- Ms Seale, Manjit: Assistant Chief Executive, National Probation Service  
- Ms Thorpe, Francine: Director of Quality & Innovation, NHS Salford Clinical Commissioning Group

**Officers in attendance to represent SSCB members:**
- Mr Dodd, Gwyn: DCI, Greater Manchester Police (Representing Mr C Allsop)  
- Mr Griffiths, Andrew: Interchange Manager, Cheshire & Greater Manchester CRC (Representing Ms N Pugh)  
- Ms McKenzie, Jane: SRFT (Representing Ms C Kelly)

**Officers from the SSCB in attendance:**
- Ms Bentley, Vivienne (minutes): Senior Business Support Officer, SSCB  
- Ms Slack, Tiffany: Interim Business Manager, SSCB

**Other agencies or groups invited onto the Board as co-opted members and advisors**
- Mr Barnes, David: Child in Need and Quality Assurance Service Manager, Salford City Council

**The Lead Member for Children’s Services (participating observer):**
- Cllr Walsh, John: Elected Member

**Apologies received from:**

**SSCB Members:**
- Mr Allsop, Chris: Superintendent, Greater Manchester Police (Representative attended)  
- Ms Browse, Laura: Head of Primary Care, NHS England  
- Ms Kelly, Clare: Assistant Director of Nursing, SRFT (Representative attended)  
- Ms Patel, Andrea: Designated Nurse, NHS Salford CCG
Presentation of Reports –

2. Vulnerable Young Person’s Plans (VYPP)  David Barnes (Paper)

Mr Barnes attended the meeting to present this report.

- Child Protection Plans set out what is expected of parents, it is recognised that plans for some teenagers need a different approach which involves direct engagement with the young person and gives them some responsibility about how the meeting is managed. During the pilot, VYPP meetings were held more frequently than child protection plan review meetings.
- Risk management of cases is a priority and the aim is to provide a framework to work safely with young people who are undertaking risky behaviour and identify what can and cannot be done.
- The pilot took place from April to December 2016, 26 cases were managed on VYPPs, and they were all coordinated by Child in Need Coordinators.
- Processes did emerge and develop as the pilot went on, the initiative is quite dynamic and established that best way for VYPPs to begin was from the child protection strategy meeting, it was helpful to set in place the consultation following a CAFAS, consultation with CP Coordinator to determine if they met the child protection threshold. VYPPs appear to have worked well.
- It was positive that from an early stage the police agreed to place a marker on the young person, not their home address.
- Received good feedback from young people who have been placed on a VYPP

Mr Barnes informed that the proposal is that SSCB takes over governance and oversight of VYPPs. This does not include the operational oversight of VYPPs.
The Chair noted that this system allows a named professional, who is not necessarily a social worker to take the lead with the child. This has the potential to free up capacity for child protection social workers. The Chair asked what it means to be responsible for the governance of this system and what are we expected to do. These are some of most vulnerable children who are undertaking risky behaviours. Child Protection Plans do not help this group however, if we take on governance, we also take on the risk.

Ms Thorpe asked whether reducing demand on social workers will result in the risk that this demand is transferred to other agencies. Mr Barnes informed that professionals from youth services, schools and colleges are most likely to be the key professionals. During the pilot, all of the young people also had an allocated social worker, however, to fully implement this model there would be cases without an allocated social worker. It was noted that all of the Child in Need Coordinators are social work trained, therefore there would continue to be social work oversight of the cases.

Ms Armfield asked if there is any back-up if the young person chooses a key worker from a different organisation. Ms Hubber noted that the lead professional would always be a professional with an established relationship with the young person and also assured that training will be available.

Ms Murray feels positive about this initiative and suggested that it may be more of a risk to continue with child protection plans for this age group as it has already been established that this system is not working. Some clarity is required regarding the training and expectations of the key worker. Mr Barnes assured that if there is not an allocated social worker; the case engagement by the key worker and their manager would be shared with the coordinator. Training does need to be delivered to a range of professionals to give them the confidence to undertake the role.

The Chair informed that he attended a briefing session when the pilot was being developed and found it to be a positive session.

Cllr Walsh informed that he is in agreement with Ms Murray, there are examples from the pilot to indicate that this process is working, therefore we should support it.

Mr Barnes highlighted that one of the risks is when cases transfer in or out of neighbouring authorities. We need to ensure cases are transferred with the correct status. The Chair suggested sending a summary report to the Greater Manchester Partnership to inform them of the system and noted that we will need a written agreement with them at the point of transfer.

Ms Slack noted that this links to threshold of need and she will need to work with Mr Barnes to include this process in the threshold of need documentation. Ms Hubber will inform Chris Williams, Ofsted Quality Assurance Officer and DfE to let them know how we are planning to work with this cohort of young people. It was noted that this system will support the DfE strategy to reduce the number of children placed on child protection plans.

Rabbi Grant expressed concern that too much emphasis will be placed on the youth service supporting this group of young people, especially as this service is vulnerable to further budget cuts as more Local Authority budget cuts are made.

Dr Clancy commented that this initiative demonstrates how we work with other young people and partner agencies; this work embraces the voice of the child and teaches children to take responsibility for their actions.

Mr Barnes informed that the proposal is for this process to be used for young people 15 years and older.

The SSCB understand that supporting this means we are taking a managed risk, however the same safeguards are in place as with a child protection plan. The process also gives strength to the voice of the child and looks for the person with the best relationship to take on the lead professional role. It was agreed to support this initiative and accept governance of the VYPPs in Salford.

Ms Ramsden noted that in some cases the person on a VYPP may have younger siblings placed on a child protection plan, and therefore the family will have an allocated social worker.
Dr Dixit suggested including these young people in some research to identify the outcomes of this intervention. Current research looks at the effect of the current child protection system on children as they move into adulthood and become parents. If we are going to make a difference it would be interesting to follow up with these young people. **It was agreed to** discuss this with the university as a potential research project.

### 3. Future Safeguarding Arrangements

The Chair presented his report, included with the papers for this meeting and informed that the Children and Social Work Bill is complete and awaiting royal assent, which is expected before the general election. Draft guidance should be available in summer 2017 for consultation to be finalised in autumn 2017.

The Chair has met with SSCB members individually, an overview of these discussions and SSCB members views are included in the report. It is expected that the DfE will approve the plans to abolish LSCBs in their current form. The Chair is keen for the SSCB to get to point where we have a clear idea of the position in April 2018. The implementation timetable is uncertain; some authorities are not in a position to implement changes but it is understood that if local authorities are in position to move earlier, they can do this anytime form April 2018-April 2019.

The report recommendations were discussed:

i) To retain the current structure until 31st March 2018

The current structure needs to be continued at least until this date.

ii) Based on discussions and views shared at the Board the Independent Chair and Board Manager, with support from board members as required, prepare a draft plan for 2018/19 arrangements for final approval of the Board on 20th November 2017.

Need to identify what the new model may look like, and what the detail will be. If a meeting is required, look at identifying if it can be merged with other meetings. **The Chair agreed** to work on identifying models and how they will work.

iii) The Chair to begin discussions to explore the proposal that the strategic planning and oversight of early help and prevention be transferred to the 0-25 Strategy Board as soon as regulations allow.

The Safeguarding Board’s remit is becoming unpredictable, we need to identify the safeguarding needs analysis and show its effectiveness and do what needs doing.

iv) To recommend the establishment of a transitional Salford Safeguarding Children Partnership executive decision making body comprised of the local authority Chief Executive, Chief of Police
and Chief Operating Officer of Salford CCG or their nominees.

As current legislation is shared, the statutory guidance is likely to name posts that should be a part of the Boards.

If there is going to be an executive, the accountable person will probably delegate to the safeguarding leads.

v) To re-brand the SSCB as the Salford Safeguarding Children Partnership from April 2018 and review the constitution, membership, guidance and policy changes required to transform the current SSCB to that.

Re-branding will need to be undertaken ASAP. Ms Seale suggested using a development day, to give SSCB time to spend looking at the changes and taking into account government developments, budget restrictions, and look at what we want to do to transform ourselves. Need to look at the approach the SSCB will take to implement these changes. A development session has been arranged for 16th October 2017, 10am- 1pm. There was some discussion about whether there would be sufficient time to agree a re-brand of the SSCB.

Mr Dodd said we should be asking whether certain meetings and procedures should continue. Meetings and Boards should be set up because there is something that needs to be done and suggested we have more than one development session. Ms Seale felt we should be more transformational and consider outside the Board and agree to the steps to have a facilitated discussion about how transformational the Board can be. It was agreed to continue with the booked development session booked and look at whether it is a culture change and identify what we need to do. We will then arrange another development session for January 2018, when the guidance should be published with a timetable in place.

The Chair noted that the expectation is that statutory partners will have to sign off the arrangements and they will have to be in force from April 2019. The changes could be made earlier than March 2019 and SSCB is in a position to make the changes earlier. It was agreed that a decision on the timeline can be made in January 2018.

vi) From April 2018 to stop using the term lay member but to ensure that there is community representation on the partnership with a revised role to provide additional independent scrutiny.

Local scrutiny has not been defined and the history of lay members has put some constraints on how we get input from the community. It is proposed to move away from the term “lay member” and use a different approach. Ms Murray would like to discuss this further outside of this meeting.

vii) To retain an independent chair for the partnership on a one year rolling contract to allow for continuing independent scrutiny and a smooth transition, but allowing for further change as the GM wide standards board develops.

The Chair informed that he will be stepping down as Chair of SSCB next year. The legislation does not stipulate an independent chair; however it was thought to be wise to keep one, with a one year rolling contract. If this is agreed, the SSCB will need to recruit to this role in December, in time for March 18.

viii) Agree to delegate to the case review sub-group in conjunction with the Chair of the Board, consideration and any response to Government consultation and guidance on case review and make recommendations to the Board, as part of the plans to be agreed in November 2017, on the process for changes, if any, to local practice case reviews.

There are a number of changes around serious case reviews, the terminology will change to national reviews and local practice reviews. Detailed guidance is not yet available. The national reviews will be thematic, unclear how they are triggered. The new national panel will be a ministerial appointment, the current panel is advisory. When the guidance arrives it is suggested
that the case review and audit sub group should be tasked with clarifying the expectations when referring cases to the national panel. If the term “serious case review” is not being used they will need to rewrite the definition.

ix) To retain the current tripartite CDOP arrangements until any proposed changes emerge from GM wide discussions. From April 2018 recommend that these will not be a sub-group of or funded through the revised partnership but will directly report to any executive decision making body identified by the statutory partners.

Oversight of CDOP transferring from DFE to DoH needs to be maintained, currently unsure about how this will be done. Funding CDOP is a significant budget pressure for the SSCB, it was also noted that most child deaths are health related and result in public health campaigns. It was suggested that CDOP would be better placed with Health and Wellbeing Boards, however until regulations change; we need to continue with the current model.

Ms Seale expressed concern with the proposal that no one sits on more than one group and asked if this will mean more meetings. The Chair assured that this will not happen as long as statutory partners are clear where the priorities sit; currently we do not have any prescription of priorities for example most LSCBs have a CSE sub group. We will need to see the legislation and look at the sub groups, asking the group to challenge their selves and look at the purpose of the group, asking if they are making a difference and if the time invested is proportionate to what is taken from it.

Ms Seale noted that the Coordination and Delivery group is already a meeting that other LSCBs do not have. Perhaps this group could have a different status; originally it was set up as a meeting of sub group chairs. The Chair will take this work forward but it needs to be mandated by the SSCB.

Ms Ramsden commented on how this fits with the Greater Manchester picture, and noted that Greater Manchester Safeguarding Standards Boards is something the DfE want to fund, however due to the upcoming general election we are unlikely to receive a response soon. Greater Manchester Safeguarding Standards Boards principle is to identify what can be looked at once as a combined authority and then feedback to local areas. Comparative safeguarding data so can challenge areas and ask for the story to explain the data. We would also be able to share learning from initiatives that work well such as the VYPP. There are Greater Manchester themes, complex safeguarding, organised crime etc. The Board work well as a partnership and has a collective responsibility and this should be able to continue. CDOP is likely to become a Greater Manchester group; there is scope for Salford to simplify the sub groups, a lot of work can be undertaken and shared with other Boards.

Ms Thorpe noted that there is still a need to have an overview, and provide scrutiny and challenge. Strategic partners with statutory responsibilities still welcome the challenge that partners put into the work they do.

The chair summarised that in general the view of SSCB members is that:

- The Chair will undertake more work ahead of the development session in October,
- The importance of maintaining current arrangements is recognised and it was agreed not to change for the sake of it.
- Identify if the processes can be streamlined, and if all of the sub groups are required.
- Start dialogue for work to be done elsewhere.
- Look at how we strengthen the wider partnership, and identify the function of the executive decision making body.
- Detailed discussions are needed on community engagement on a wider basis, taking the role of the lay member, elected members and community and voluntary engagement.
- Whilst looking at the groups, identify if there can be one meeting rather than separate Board and Executive meetings.

3.3 discuss outside of this meeting how we get input from the community. It is proposed to move away from the term “lay member” and use a different approach. 

Louise Murray

4. Theme: Early Help/ Emotional Health and Wellbeing 

Deborah Blackburn (Paper)

- Early Help Report

Ms Blackburn presented the Early Help report included with the papers and highlighted:

- Looking at refining the performance measures used and reporting by exception only.
- The Family Assessment process is changing, therefore CAF data is not available to be reported on, however information from the team suggests that family assessments are being completed and indicate the threshold of need in the city.
- Injuries for children above 5 years of age tend to be sports related; under 5’s tend to sustain injuries from falls from beds.
- There has been an increase in breastfeeding, which is thought to be as a result of health visitors undertaking ante-natal visits.

Questions/comments:

Ms Armfield informed that completing the family assessment is much more beneficial than the CAF.

The Chair noted that with regards to data, it may be worth checking if there are any particular things the board wants to see as assurance. The accountability on early help sits with the SSCB but the detail of the work sits with the CYPTB. Need to identify if there are particular things that the SSCB would like to see in the assurance report.

Ms Seale commented that in the long term would hope the outcome is a reduction in children on child protection plans; however this is a long term outcome. Ms Blackburn said the aim of the early help indicators was to hold the system to account.

It was agreed to receive the Early Help report on exceptions.

The Chair requested a report on the progress made with family assessments as this is a very new process.

With regard to under 4s, it would be beneficial to understand any action which has been undertaken to tackle this.

- Emotional Health and Wellbeing Report

Ms Blackburn presented the Emotional Health and Wellbeing report included with the papers and highlighted:

- This is part of the 0-25 programme and the test case has received significant investment from NHS Salford CCG to transform the system.
- There is a huge amount of work happening at the moment, the expert reference group reports to 0-25 Board and also to CYPTB.
- There are a number of indicators used to benchmark emotional health, trying to identify how to measure how happy young people are. Data for some of these measures is difficult to obtain; a number of services are level 3 tiered for CAMHS who receive referrals. There are also level 2 providers but currently we can only receive information from NHS services despite services being provided from other sectors.
- A lot of work with children and young people’s health watch took place last year, to look at issues regarding early years and building resilience.
- Transitions from primary to secondary schools, and also children’s to adults’ services are significant points in children’s lives.
- Working with LGBT
• There is an action plan being developed which will include a rolling program of work being undertaken.
• Perinatal mental health and parental mental health are also issues.
• Looking at parent and infant attachment and issues and improving the integration and delivery of provisions.

Questions/comments:
The Chair noted that there is a lot of detail in the report, helpful if there are particular things SSCB want more information, concerns or challenges they are highlighted now:

Cllr Walsh commented that the capacity of the current system is not meeting the needs of children and young people. Ms Blackburn assured that the transformation money is being used to transform services. Cllr Walsh commented that we need to look at the “so what” and identify how we ensure the family is emotionally well enough and resilient enough to cope. Ms Blackburn informed that in areas where there was expected to be an increased no of referrals to CAMHS, there wasn’t. Ms Armfield noted that there is more that can be done regarding early help; in particular we need to be able to advise and support fragile children. These children can be identified, and schools need additional advice and support but do not necessarily need a referral to children’s services or CAMHS. The Chair asked what the impact of the schools pilot is, has it been accepted and fed into the investment strategy. Ms Blackburn informed that it has and there is a piece of work with The Bridge and West Locality to test the Emotional Health and Wellbeing work to look at contacts from schools being through The Bridge, there is also a piece of rapid response 24-7 work ongoing and some work at a Greater Manchester level to show what a whole Greater Manchester system could look like.

Ms Armfield informed that the pilot did go well, and felt this was largely due to having somewhere to contact before referring to The Bridge.

Ms Murray agreed that it is right to ask SSCB support, and that it is unhelpful to only measure CAMHS involvement. With regard to the voluntary and community sector, there were 2-3 models with links to schools, and it is fortunate that with help from NHS Salford CCG we are able to bring this out to schools to provide earlier help to families.

The Chair highlighted that this was top of the agenda for the youth council, members were able to give examples of instances where friends want and need support and the length of time they needed to wait before an assessment took place.

The Chair noted that it would be useful to know progress around the integrated commissioning and the SSCB can ask the 0-25 Board and the Executive to provide some assurances that there is some plan to tackle the issues identified. It was agreed to request an assurance report on exceptions and focussing on: support to schools, CAMHS waiting list, and the agreed transformation plan to deliver the CAMHS service locally and regionally.

Mr Dodd asked where the early intervention has been tested. Ms Blackburn informed that the website Partners in Salford” that signposts young people to online support and also gives advice to professionals on where to seek additional support. With regard to early intervention, there has been some mapping of services in schools; there is also a counselling framework in schools. Mr Dodd noted that these are all tactics and asked how we know that any of these tactics are making a difference.

Dr Dixit informed that he has read a paper, available on the internet which looked at the effect of adverse childhood experiences, mapped out in the area the referral rate and experiences children facing. The papers noted that simple things like street lighting and close nurseries reduced the referral rate to child protection. Ms Blackburn informed that they are looking at whole life support.

Ms Seale asked whether when children are victim of abuse, they are referred to the CAMHS service for counselling or if counselling services are commissioned by bespoke services. Ms Hubber explained that this depends on the case and what services are available to the individual. The Fight for Change council have identified that if a child is removed from their family, they have suffered emotional harm, whilst this does not mean they should always be referred to CAMHS it does mean we need to look at what support is in place for their mental health at that time.
Rabbi Grant noted that there is mention of links to the internet to access information and support however in some ethnic minority communities young people do not have access to the internet. Ms Blackburn informed that there are two pieces of research ongoing in Jewish communities at the moment, one with young Jewish men to look at how they access mental health services. This is due to be complete in 4-5 months. There is also an issue with young women, 42nd Street are looking at introducing peer mentors, and trying to identify the needs within the community. We need to ensure we use the right resources, initial feedback indicates that boys do not want face to face contact, however girls do.

Ms Thorpe asked how we are publicising this work to young people so they can see that work is being done in areas they prioritise and they know that we are acting on the points they have raised. The Chair noted that one tangible way would be to feedback directly to the Youth Council.

Ms Blackburn informed that the outcomes are being refined.

5. **JTAI Action: Bridge Assurance Report**  
Sharon Hubber  
Paper expected

Ms Hubber apologised, a written report has not been prepared for this meeting. There are several pieces of work ongoing at The Bridge:

- A permanent full time manager has been appointed to oversee the clipboard for all contacts.
- The Bridge now has two very experienced social care managers.
- The Bridge has always quality assured their work, but previously there has not been a focused look at front door.
- Contacts will be quality assured where labelled as green, with a view to identifying if it was right decision and if it was referred to the right place and if it is evidenced why that pathway was most appropriate.
- A social work improvement officer has been appointed; they are independent of any case work. The social work improvement officer will produce an analytical report be July.
- The audit team are also completing a thematic audit on the work coming into The Bridge; they are producing a joint report which will be presented in September.
- The Bridge Strategic group is a multi agency group who are being assured of ongoing work.
- Working hard to check on including other agencies at The Bridge at strategy discussions.
- There will be an assurance report and data available in September.

### 8. Coordination & Delivery Group Update

Mr Allsop has sent his apologies to this meeting, the vice chair, Ms Patel has also sent apologies. The update report from the last Coordination and Delivery Group meeting was included in the papers. Issues to raise with SSCB are:
• **Verification of training courses:** the Coordination and Delivery Group agreed to charge non statutory partners who charge for the delivery of training a fee for the verification of the course content. It is accepted that this may mean some organisations will not approach SSCB for verification. The Chair noted that the verification of courses does generate a cost therefore it is not unreasonable to charge for this work. Ms Hubber highlighted that we will need to retain a verified copy of the course and be clear that any further changes will need to be checked again.

• **Sexting:** the Coordination and Delivery Group agreed to sexting as a thematic discussion at a future meeting.

• **Performance Officer:** the Coordination and Delivery Group requested an update on the progress of advertising this position. Ms Slack informed that the Job Evaluation banding recommendation from HR is two grades lower than Grade 4a; Ms Slack and Ms Brooking have a meeting arranged with HR to discuss the grading of the post. Ms Hubber suggested advertising the post at this grade, if there is no interest then we can look at reviewing the grading. Ms Slack will look at the grading breakdown form with HR.

• **Admin support:** Ms Blackburn has requested support for the Complex Safeguarding Sub Group. It was agreed to include admin support when looking at the new LSCB arrangements.

---

9. **SCR – verbal update**

Ms Hubber informed that this group last met on Friday and updated:

• **SCR Child R:** Ms Hubber informed that the report and action plan are in place, this case was included at the learning event on 31st March 2017. The learning event was well attended and included a lot of interaction. Ms Hubber took the opportunity to formally thank all of the case review and audit sub group members who supported the tables and facilitated conversations and helped to make it a successful day.

The case review and audit sub group will monitor the completion of Child R action plans.

• **Case 2017-01 SF:** The National Panel have agreed with the decision not to commission a SCR. We are in the process of identifying a lead reviewer for the Multi Agency Concise Review (MACR). At the last case review and audit sub group meeting it was agreed to contact Melanie Hartley to review the case.

• **Case 2017-02:** New referral received, the family were housed in a garage. Initial information suggests that this case does not meet the criteria for a SCR but there is a lot of learning. At the last case review and audit sub group meeting it was agreed to have a MACR, with a practitioner learning event.

• **Case 2017-03:** This is a young person who is thought to have taken hi own life. He lived with his mum in Eccles and died in Cambridge after walking in front of a train. At the last case review and audit sub group meeting it was agreed to request further information and ensure that the CDOP notification has been received.

Ms Hubber noted that there has not been any quality assurance of this referral, there needs to be an oversight and clear reasoning for the referral. It was explained that the referral was made by GMP as the young person was reported missing at the time he took his own life and a SCR should be considered if a child commits suicide whilst missing from home. Ms Hubber commented that it has not yet been established if it was suicide or if he was missing from home.

---

**Key Local and National Issues**

10. **Feedback from:**

   a. **GMSP**

   [Deborah Blackburn] Verbal update

   The last GMSP meeting was cancelled

   b. **Children & Young People’s Trust Board** Info Only Paper

   c. **Health & Wellbeing Board** Info Only Paper

### Standing Items

#### 14. Items to refer to young people

**Open**  
N/A

The Chair agreed to feedback to the Youth Council on how their views have been taken into account to change the way services are run regarding Emotional Health and Wellbeing.

It was agreed to consider how to communicate with young people regarding the Vulnerable Young Person’s Plan during the implementation of this plan.

#### 15. Items to evidence challenge and/or good practice

**Open**  
N/A

Evidence of challenge:
- Future safeguarding arrangements
- Emotional Health and Wellbeing.

Evidence of good practice
- VYPP
- Update from The Bridge; two managers, tracking greens and referral quality.
- Cases referred to case review and audit sub group
- Quality assurance of referrals.
