

## Hate Crime Bystander Intervention Training

**Target Audience:** This training is open to all community partners.

**Overview:** An interactive 3 hour session to gain knowledge and understanding of hate crime and how to raise awareness of a range of interventions that can make us better allies.

‘Stand by Me’ addresses the barriers people have to helping others when they witness harmful behaviours and attitudes in any environment. It is an innovative approach to promoting inclusivity and challenging prejudice. It's unique features are:

1. Shifting the burden and responsibility and action from the person affected to those present that may witness it (Bystanders)
2. Encouraging everyone to play a role in contributing to tackling prejudice, however big or small
3. Providing interventions that support the person affected as well as challenging the poor conduct

With everyone on board and playing a role, ‘Stand by Me’ sets the path to new social norms and organisational culture.
